I love this app. I have been collecting stamps for several years now, and I would often search through pages and pages of pages searching for a particular stamp. This app has a great search feature and the ability to narrow searches down by different parameters, e.g. by country, year, theme, etc. I usually find the need to correct my catalog, and this is very useful to do so. I have several of these apps on my iMac and iPad. If you're a collector of any kind of currency, this app is a must-have. Developer Response February 22, 2019 Thank you for the great review!
