You set sail on one of the monochromatic ships (Gold, magenta, cyan, or yellow) built with the secret techniques on the island of Monochroma. In Monochroma, various artists take on various tasks, and their sites are open to the public and even outside of the game. The island was established by Dr. White, who originally summoned the rare warm-blooded mythical monsters. However, the island was split up and destroyed by the Black Dragon Empire, before the Monochroma Monsters were brought to life. Thanks to Dr. White's experiments, the Black Dragon Empire's sword had a certain power: "I am glad if you acquire the power of our kingdom!!!" This is a story of awakening these "Monochromatic Monsters" from within the ruins of the island. -Monochroma Website Please read the "Terms of Service" described on the website. ■ How To Play -Run the game from the memory card of the Vita -Setting up the game will be completed when the Vita boots up. -If you have left everything alone when saving the game, the game will boot up fine. -You do not need to use the update function or other functions.
