London Sector 2 is one of the busiest airspace of the world. This Sector includes Luton Airport, London Stansted Airport and London City Airport. The airspace is operated by the the ATC's joint command.Luton Airport, London Stansted Airport and London City Airport have a very busy airspace and their airspace is also a Realistic airspace in this version of the game (although a feature for Realistic simulation users is included as well). Luton Airport is one of the busiest airport with its 1.8 Billion PassengerYear. London Stansted Airport and London City Airport are also very busy airports. The game offers you to fly in real air traffic from these three airports as well as a good portion of the other airports across Europe. You can choose to fly just a large portion of the local airports or fly a longer route also with various airports. The game also offers you to fly over Europe. In this version of the game (LOD) the airspace has been developed to be as Realistic as possible so you should feel like you are in reality. You have to solve short term obstacles such as wind or other aircrafts. You can see the full description of the scenery available in this version of the game including a few more airports which is not available in the previous Tracon versions. Other features are included in this version such as the Realistic snow and rain effects which will be the last edition added to this game. There will be New Air Nav aids in the near future for the sector. Requirements: To play this version you need to have the following system requirements: Intel® Core™ 2 Duo Processor or equivalent Windows® 7 64bit or higher 128 MB RAM 1 GB free space for installation The pack contains two games: Tracon! 2012:SE: The Download Tracon! 2012:SE: DLC Pack About This Content Release Date:31st October, 2011 LOD: 30th August, 2011 Pack Description: After the success of the Tracon! 2008 release, Digital Dagstuhl complemented by Cinemax, the development team is proud to present to the users Tracon! 2011.
