Isolation is a refreshing mix of a long-running JRPG and an adventure game, the action starts more than 3 hours into the story, and the game gives you a choice on how to play. The Legend of Heroes: Trails of Cold Steel - Scenario – The world of the Trails series begins to fall into ruin. A terrible civil war threatens the survival of the world. A war that must be stopped, but under whose rule? Who will emerge as the hero who saves the world from the darkness... and who will fall? The Legend of Heroes: Trails of Cold Steel - Character – Chosen by fate to become the hero who saves the world from the darkness, the main protagonist, Rean Schwarzer, is a college student in the year Liberl, which happens to coincide with the year the world is about to fall into ruin. The Legend of Heroes: Trails of Cold Steel - Action – You'll tackle scenarios and fight battles as a favorite character and forge your own path in Liberl, a world that has been entrusted to you, your comrades, and your destiny. The Legend of Heroes: Trails of Cold Steel - Struggle – From the hero who saves the world from the darkness, to the hero who will fall... everyone has their own path to choose in the Trails series. The Legend of Heroes: Trails of Cold Steel is once again beginning from the beginning. The main protagonist, Rean Schwarzer, isn't the only one who can find the hero within. ThinkAhead Game Key features:

- Create a game-defining experience by quickly building your game experience, in dribs and drabs. For example, break down yourself or your stakeholders' needs for a first prototype with Pajama under the covers.
- Define your game vision and communicate it to your stakeholders. Produce a map of the map, with a rationale, of your game
- Pick the best game components and visualize your game.
- The ThinkAhead Game Key+ app helps you quickly build your core game vision, with just-in-time (JIT) tools for design and mapping. It covers the entire space of the game.
- The quickest way to prototype, playtest, prototype and iterate your game design. Other tools are available in the ThinkAhead Game Key+ app, including:
 - ProtoTiles - visual tiles to help build your prototype
 - AppStar - galaxy made for prototyping and testing your prototypes
 - Visionwall - map as an extension to Protovision.
 - Postally - postal mailing labels as an extension to Protovision, a light and versatile prototyping environment
 - PaperMap - plan to map your game.
 - Annotate - annotate and live map that visualizes game mechanics.

Remember, the ThinkAhead Game Key+ app may be any of the above if there is a free ThinkAhead Game Key+ app.
