Elden Ring Features Key:

Impeccable Graphics: With graphics now able to undergo great improvement using Unreal Engine 4, this title has endless ground to be covered with splendid visuals. Every character and scene in the game will be experiencing real-time high resolution graphics; this is a fantasy RPG that cannot be captured in a screenshot.
Innumerable Treats: An abundance of rich gameplay elements such as actions, quests, battles, events, and much more.
Original Work Based on An Original Myth: "Lord of the Ring", a novel written by TAKE FUJIO that embodies the drama, sweeping fantasy, and vivid atmosphere of a sword-and-sorcery legend, is included as a bonus for the game.
VR Support: The terrain and the game environment support immersive VR support with a 110 degrees field of view, and the vast world and 3D battle graphics are built especially for VR.
Large Scale Worlds: The fantasy world in the Lands Between was designed from the grounds up to stand the test of time. The in-game towns and dungeons of such a large scale are worked out into an actual one. Navigate between them in the vast world.

ffr_taole is developed by Brace Yourself Games and published by Bandai Namco Studios Inc. It will release in Summer 2016 on PlayStation 4 and PS Vita in Japan. For more information, please visit

Celes/Media/Roegadyn (Subsystem: Celes/Media/Roegadyn) Play with friends in an adventure that leads to adventure.

While you and your friends explore in the character created by you, you will also be able to travel together with up to three other players in a shared world.

-Play with up to four players as one party -Overcome the challenges together by plotting out the best strategy and conducting cooperative actions -Change your character position in the world at any time during the game.

In addition to the standard functions of the Celes/Media/Roegadyn subsystem, Celes/Media/Roegadyn allows character detail display and party chat.

Receive daily and relevant event notifications to enhance your party and overcome dangers.

Event notifications are given based on the history of previous events.

-The history of the previous event is displayed in the character detail screen.

-You can view and change the details of the current event and its party, as well as set an option to be notified automatically each time the event is completed.

-When the party completes an event, the updated information is written to the history.

-Use the automatic notification setting to be notified automatically whenever an event is completed.

-Choose whether to generate an automatic notification each time the event is completed.

Celes/Media/Roegadyn can be used in conjunction with the setting that will generate each period's event notifications.

For example, if you choose to use the Periodic Event Notification setting, you will receive notification of any
