## **Lipi 2250 Printer Driver For Windows 7 |VERIFIED| Free 12**

September 18, 2008 - counting 2250, how to change paper length setting in tally2250 - Tally T2250 dot matrix printer question. I have a printer that prints on paper length 15 cm. How can I change the paper length setting in my tally2250 setup It is not possible to change the paper length settings in Tally2250. You can change the value according to the paper size you are using. You must print on paper that is longer than your print on paper, and thus you can reduce the amount of gaps. You can also increase the paper size.
