## **Windows 7 Ultimate 32 Bit Oem Product Key**

I originally ordered a Windows 7 PC with OEM 64-bit pre-installed. ...

I just want to activate it with the license key on the 32 bit CD I bought. I only used this CD to install it on my laptop and I want to bring it back to Microsoft to activate it. How can i do this? Thanks Well, if you bought a computer with 64-bit Windows pre-installed, or if you bought an OEM version and used the installation CD to install only on a 32-bit computer, you will probably have to use this installation CD to activate your operating system. system.
