## **Magento Marketplace Multi Vendor Module Nulled BETTER**

multi vendor marketplace extension comes with many features and lots of extra modules. i especially love the price comparison feature in this marketplace extension. it allows you to compare prices of products from multiple vendors. review by:- nick cooleen multi vendor marketplace extension is one of the best extension ever. it is a very complex extension which makes your website live. this extension comes with a very flexible pricing structure, and you can setup it in a matter of minutes. review by:- shubham khandelwal this is the only marketplace multi-vendor script you need. with this script, you can create multi-vendor marketplace website. this script has many extensions. you can install all extensions easily. there is one extension for each section of your website like categories, products, orders, customers, and payments etc. and the best part, if you want to have any changes in your website, just update the extensions and you can use all the extensions of your own website. there are two themes. the first theme is default theme. it is easy to install and update. the second one is responsive theme. this theme is more flexible than the default theme. you can update the theme easily and it will look good in all devices. there are two platforms. the first platform is for mac. the second one is for windows. the third one is for linux. the fourth one is for iphone. the fifth one is for ipad. the sixth one is for android. if you want, you can also install a template. you will have all the features that you want in your site.
