Quick Recovery Microsoft Word Crack Download For PC [Updated]

Quick Recovery is a product that recovers and repairs corrupt Microsoft Word documents. You can recover easily lost, corrupt, and damaged documents from virtually any computer system. After analyzing a corrupt Microsoft Word document, Quick Recovery can recover almost any type of data. When you delete a Word document from a Microsoft Windows File Cabinet, the information in the document can be left behind. If you don't recover that information, you will be unable to open the document again. Without a reliable document recovery solution, you'll have to retype the entire document from scratch. Quick Recovery extracts and recovers the deleted data from a Windows File Cabinet on a hard drive or a CD/DVD. The results are easy to understand. Quick Recovery uses two different technologies to solve the problem. One is the Quick Recovery Guided File Excavation Technology (GFETCh) which helps in locating files and folders lost behind overwritten partitions. Another one is the Quick Recovery Unerased Data Recovery Technology which recovers all the data within a damaged partition.

User Friendly Interface: In each step of the recovery process, the user is guided through a comprehensive wizard to maximize productivity. The wizard contains four main screens. The home screen allows you to select the type of recover, the file format and file name, and the name of the target disk on which you want the files to be recovered. In the middle of the home screen, you'll find three main tools: the main screen shows the preview of the recovered files and folders, the analysis screen allows you to select the folder to be analyzed, and the save files and folders screen allows you to select the files and folders you want to save on your computer. The analysis screen is where the GFETCh technology

works on the selected folder. The GFETCh technology supports the following file formats: .MSOffice: MS Word, MS Excel, MS PowerPoint, and MS Visio. .OpenOffice: Open Office (.odt), Open Office Writer (.rtf), Open Office Calc (.xls), Open Office Impress (.ppt), Open Office Draw (.pdf), Open Office Impress (.odp). .PDF: Adobe Acrobat (.pdf). .HTML: HTML/XML (.html). .txt: Plain Text (.txt). .Vob: Windows Movie Maker (.vob). .TIF: Tagged Image File (.tif). .JPG: JPG/JPEG (.jpeg).
