Show HN: Convert PDF to images, reuse them in Word - arhit ===== callahad A while ago I made a simple service that does almost exactly this: [ pdf] You upload a PDF, and it generates images at a resolution you specify and which it can tile together to create a high-res image of the entire document. Currently I only support a subset of PDFs, but it's relatively simple to add more features. You can also optionally set OCR settings, and then I can use those to index the OCR'd text inside the PDF. The idea was born from a desire to save space on documents we store in cloud storage. :) ~~~ arhit Thanks, I'll take a look A blog about wargames, board games and other things that might take up a bit of the player's time.
